## **To whomsoever it may concern**

Software release in BHEL supplied propulsion consists of two parts

1. Major version
2. Minor version

Sub-system	Software release	Loco type	Major version	Minor version	Software version
VCU	61.01	WAG-5 & WAG9	61	0.01	61
	61.02	WAP-7	61	0.02	
TRC	792.05	WAP-5	792	0.05	792
	792.07	WAP-7	792	0.07	
	792.09	WAG-9	792	0.09	
AUX	889.08	WAP5,WAP7&WAG9	889	0.08	889

Major version is the main version and it is used to denote software version in all sub-systems.

Minor version changes as loco type changes but Major version remains the same for all loco type. Hence Only Major version is used to denote software version.
