PRESS RELEASE

ELAAU DANKUNI OF CLW ACHIEVES RECORD MONTHLY PRODUCTION

Chittaranjan/ Dankuni; 02.06.2025

The Electric Loco Assembly and Ancillary Unit of Chittaranjan Locomotive Works (ELAAU/CLW), Dankuni has set a new benchmark in locomotive manufacturing by producing 18 WAG-9HC electric locomotives in May 2025, in the financial year 2025-26, surpassing its previous highest monthly production of 16 locomotives achieved in November 2024.

The 18th locomotive, WAG-9HC bearing the number 42575, marked this record-setting milestone for the month. This achievement reflects the consistent growth and enhanced operational efficiency of the Dankuni unit, contributing significantly to Indian Railways' electrification and freight movement capabilities.

This is the all time highest Monthly locomotives production achievement from Dankuni is a historic proud moment and is a part of CLW's 75 Glorious year's celebration & Celebration of 100 years of Electric traction over Indian Railways.

It is mentioned here that, in the last financial year Dankuni had produced a total of 156 locos.

Shri Vijay Kumar, General Manager congratulated the entire Dankuni team of loco production and appreciated their effort in producing the highest ever monthly LOCO production of 18 locomotives successfully.
